FIRE RELIEF CLAIM FORM

The Witch Creek fire may have resulted in an increase usage of water for my account and I wish to make a claim for an adjustment.

It is my understanding that the Ramona Municipal Water District will allow a claim for an adjustment equal to the additional water used for on-property fire prevention during the billing cycle that included October 21-26, 2007 over the billing cycle that included those dates from the prior year.

Please review the usage on my account and make the adjustment if I qualify.
