

February 14, 2025

To Whom It May Concern:

Rural Community Assistance Corporation, Ramona Municipal Water District (District), residents of the Acres Community and NV5 Consultants have been working collaboratively to bring safe and reliable water supply to the Acres Community. Through grant funding, the District is constructing new water lines to provide water service to your area. Construction for the project will begin in early 2025 and will continue throughout the year. A more detailed fact sheet regarding the project is included in this mailing. These improvements will allow the District to provide water service to well owners in the area, and will require the relocation of meters for existing customers that are currently receiving service through “spaghetti lines”.

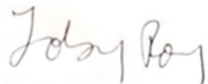

We are requesting property owners to complete and sign the attached project participation form and submit it to RMWD as soon as possible in order to obtain service. Please read this form to understand the conditions of service. This form may be dropped off or mailed to the District offices located at 105 Earlham Street Ramona, Ca 92065. All forms require a wet signature by the property owner(s).

If you have any questions about the project, please contact Toby Roy at RCAC at (760) 585-8754 or Victor Coronado at (530) 273-0774.

For any questions on coordination for meter locations and installation, please contact Ricardo Soto at the District at (760) 788-2260

Esta carta incluye información importante sobre el servicio de agua a su propiedad. Por favor, póngase en contacto con Ricardo Soto o Victor Coronado en los respectivos números arriba si necesita ayuda en español.

Sincerely,

Toby Roy
